

— $P = 1$: mean
 median error 34% of range

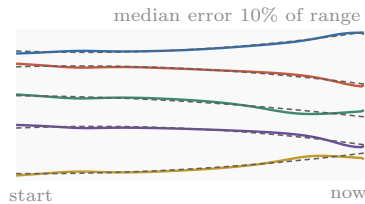

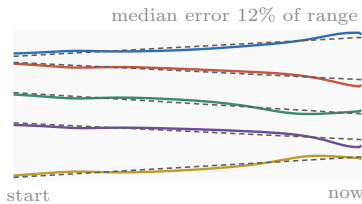

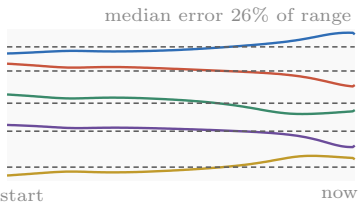

— $P = 2$: + linear trend
 median error 11% of range

— $P = 3$: + quadratic shape
 median error 7% of range

forward h

backward $r\delta/\rho$

learning clock, start to now

— history of five neurons

---- kept by P moments

Across all 512 neurons, each moment is a population
